CONTENTS

Reviews

Talking Clearly about Diseases of the Pulmonary Acini *by J. G. Scadding* 1
The History of Spirometry *by E. A. Spriggs* 165
Biochemical Markers in Bronchogenic Carcinoma *by R. C. Combes, M. L. Ellison and A. M. Neville* 263

General Articles

A Comparison of Ampicillin, Erythromycin and Erythromycin with Sulphametopyrazine in the Treatment of Infective Exacerbations of Chronic Bronchitis *by R. F. Willey, J. C. Gould and I. W. B. Grant* 13
House Dust Mite Hyposensitization *by D. A. G. Newton, D. J. Maberley and R. Wilson* 21
The Effect of Sodium Cromoglycate, Beclomethasone Dipropionate and Salbutamol on the Ventilatory Response to Cotton Dust in Mill Workers *by I. W. Fawcett, J. A. Merchant, Stephanie P. Simmonds and J. Pepys* 29
An Account of Pleural Effusions, Pulmonary Nodules and Cavities attributable to Rheumatoid Disease *by J. Spencer Jones* 39
Pulmonary Infection and Rheumatoid Arthritis *by Jean-Pierre Mathieu, Bryan H. R. Stack, W. Carson Dick and W. Watson Buchanan* 57
Severe Hypercapnia associated with a Non-respiratory Acidosis *by Jonathan Webb* 62
Rifampicin-dependent Antibodies in a Patient with Hepatorenal Failure *by Tekin Kanra, Izzettin Baris and Bulent Kolacan* 67
Intrathoracic Lymphoma associated with Atrial Arrhythmias and Atrioventricular Conduction Defects *by Peter Mitchell-Heggs and Hilary Calvert* 71
Thoracoscopy in the Diagnosis of Pleural Effusions and Tumours *by J. R. Pepper* 74
Mites and Asthma in Children *by J. O. Warner* 79
The Pulmonary Vasculature in Haematite Lung *by Donald Heath, Wolter Mooi and Paul Smith* 88
Patterns of Response to Bronchodilators in Asthma *by Bernard J. Freedman* 95
Transbronchial Lung Biopsy through the Fibreoptic Bronchoscope *by D. E. Stableforth, R. K. Knight, J. V. Collins, B. E. Heard and S. W. Clarke* 108
Exacerbations of Chronic Bronchitis: Exogenous or Endogenous Infection *by D. A. Ellis, M. E. Anderson, Sheila M. Stewart, J. Calder and J. W. Crofton* 115
Salbutamol by Pressure-packed Aerosol and by Intermittent Positive Pressure Ventilation in Chronic Obstructive Bronchitis *by Norbert Berend, Janice Webster and Graham E. Marlin* 122
Lung Function in Alpha-1-antitrypsin Deficient Sisters *by D. E. Stableforth* 125
The Symptomatic Treatment of Carcinoma of the Bronchus using Combination Chemotherapy *by I. P. Williams, G. P. Clein, H. T. Ford and F. J. C. Millard* 131
An Evaluation of the Tuberculosis Agglutination Test *by S. J. Williams, Malcolm Green and A. Nicholls* 138
Sarcoidosis and Selective IgA Deficiency *by David Siegler* 143
Pleuropulmonary Amoebiasis in Ghana: A Report of Three Cases *by Chitta M. Mukerjee* 147
Pulmonary Alveolar Microlithiasis *by G. S. Thind and J. L. Bhatia* 151
Intrapleural Haemorrhage complicating Pulmonary Arteriovenous Fistula *by John S. Kintzer, jun., Frederick L. Jones, jun., and William F. Pharr* 155

Ipratropium Bromide, Salbutamol and Prednisolone in Bronchial Asthma and Chronic Bronchitis *by I. M. Lightbody, C. G. Ingram, J. S. Legge and R. N. Johnston* 181
Pleuropulmonary Lung Infection by Anaerobic Bacteria *by Rohini L. Abeysundere, Margaret E. Hodson, Melvyn Szawatkowski and Paul Noone* 187
High-altitude Acclimatization and Proteinuria in East Africa *by A. Pines* 196
Use of Exercise Challenge to Investigate Possible Tolerance to Beta-adrenergic Stimulation in Asthma *by G. J. Gibson, J. K. Greenacre, P. König, M. E. Conolly and N. B. Pride* 199
Immunological Abnormalities in Bronchiectasis with Chronic Bronchial Suppuration *by Angela M. Hilton and L. Doyle* 207
An Assessment of the Place of Follow-up in Pulmonary Tuberculosis *by S. P. Hayden and V. H. Springett* 217
A Comparison of Salbutamol given by Pressure-packed aerosol or Nebulization via IPPB in Acute Asthma *by R. M. Cayton, B. Webber, J. W. Paterson and T. J. H. Clark* 222
BRL10833 in Inhibiting Exercise-induced Bronchoconstriction in Asthmatic Children *by W. Lenny, A. D. Milner and R. M. Tyler* 225
Sulphametopyrazine Prophylaxis in Chronic Bronchitis *by D. Davies and C. S. Darke* 231
Aspiration Needle Biopsy for Solitary Peripheral Lung Lesions: A Review of 50 Examinations *by P. Grech, P. B. Gray, C. A. Lambourne, R. A. Clark and R. H. Townshend* 235
The Association of Adenocarcinoma of the Lung and Blastomycosis from an Unusual Geographical Location *by Faysal M. Hasan, Taysir Jarrah and Victor Nassar* 242
Lung Changes after Gold Salts *by L. T. Weaver and J. S. Law* 247
Pulmonary and Pleural Lesions in Rheumatoid Disease *by J. D. Macfarlane, P. A. Dieppe, B. G. Rigden and T. J. H. Clarke* 288
Pulmonary Necrobiotic Nodules without Rheumatoid Arthritis *by Dennis Eraut, John Evans and Maxwell Caplin* 301
Bromhexine in Severe Asthma *by Michael Rudolf, J. J. Riordan, B. J. B. Grant, J. B. Maberly and K. B. Saunders* 307
Pulmonary Alveolar Proteinosis: Analysis of Pulmonary Washings *by Masami Ito, Nozomu Takeuchi, Takeshi Ogura, Tomiva Masuno, Hiroshi Hotta, Mitsunori Sakatani, Hideki Nishikawa, Takahiko Yoshimoto and Yuichi Yamamura* 313
Bleomycin Lung Damage: The Pathology and Nature of the Lesion *by Aled W. Jones* 321
The Effects of Oral Propranolol and Metoprolol on Lung Function and Exercise Performance in Chronic Airways Obstruction *by C. R. McGavin and Isobel F. Williams* 327
The Measure of Vital Capacity and Minute Volume with the Wright Respirometer *by A. P. Daykin, G. K. F. Nunn and B. M. Wright* 333
Pedunculated Capillary Haemangioma of the Bronchus *by J. Richard Harding, J. Williams and R. M. E. Seal* 336
Sarcoidosis Mimicking Malignancy *by S. J. Connellan, P. E. Perceval and S. E. Wilson* 343

INDEX OF AUTHORS FOR VOLUME 72

Abeysundere, Rohini L., Pleuropulmonary lung infection by anaerobic bacteria, 187

Anderson, Gerald, Paramalignant diseases in 500 patients with lung cancer, 163

Anderson, M. E., Exacerbations of chronic bronchitis: exogenous or endogenous infections?, 115

Baris, Izzettin, Rifampicin-dependent antibodies in a patient with hepatorenal failure, 67

Batten, John, Cystic fibrosis: clinical aspects in adults, 260

Bax, R. P., Cefuroxime in the treatment of lower respiratory tract infections, 259

Berend, Norbert, Salbutamol by pressure-packed aerosol and by intermittent positive pressure ventilation in chronic obstructive bronchitis, 122

Berrill, W. T., Jejunal villous atrophy and HLA typing in susceptibility to bird-fanciers' lung (avian granuloma), 162

Bhatia, J. L., Pulmonary alveolar microlithiasis, 151

Buchanan, W. Watson, Pulmonary infection and rheumatoid arthritis, 57

Burge, P. S., Respiratory disease in an electronics factory, 257

Calder, J., Exacerbations of chronic bronchitis: exogenous or endogenous infections?, 115

Calvert, Hilary, Intrathoracic lymphoma associated with arrhythmias and atrioventricular conduction defects, 71

Caplin, Maxwell, Pulmonary necrobiotic nodules without rheumatoid arthritis, 301

Cayton, R. M., A comparison of salbutamol given by pressure-packed aerosol and nebulization via IPPB in acute asthma, 222

Charles, John, A study of the long-term effects of talc pleurodesis, 254

Clark, R. A., Aspiration needle biopsy for solitary peripheral lung lesions: a review of 50 examinations, 235

Clark, T. J. H., A comparison of salbutamol given by pressure-packed aerosol or nebulization via IPPB in acute asthma, 222

Clark, T. J. H., Pulmonary and pleural lesions in rheumatoid disease, 288

Clark, S. W., Transbronchial lung biopsy through the fibreoptic bronchoscope, 108

Clein, G. P., The symptomatic treatment of carcinoma of the bronchus with combination chemotherapy, 131

Cole, Peter, Host defence defects in adult recurrent and chronic respiratory infections, 161

Collins, J. V., Transbronchial lung biopsy through the fibreoptic bronchoscope, 108

Connellan, S. J., Sarcoidosis mimicking malignancy, 343

Conolly, M., Use of exercise challenge to investigate possible tolerance to beta-adrenergic stimulation in asthma, 199

Coombes, R. C., Biochemical markers in brochogenic carcinoma, 263

Crofton, J. W., Exacerbations of chronic bronchitis: exogenous or endogenous infections?, 115

Crompton, G. K., Inhaled corticosteroids and allergic bronchopulmonary aspergillosis, 253

Darbyshire, Janet, East Africa/MRC study of five four-month regimens of chemotherapy, 259

Darke, C. S., Sulphametopyrazine prophylaxis in chronic bronchitis, 231

Dash, C, H., Cefuroxime in the treatment of lower respiratory tract infections, 259

Davies, D., Sulphametopyrazine prophylaxis in chronic bronchitis, 231

Davies, B. H., The BTA tuberculosis contact study, 254

Dawson, A. F., Cefuroxime in the treatment of lower respiratory tract infections, 259

Daykin, A. P., The measurement of vital capacity and minute volume with the Wright respirometer, 333

Dick, W. Carson, Pulmonary infection and rheumatoid arthritis, 57

Dieppe, P. A., Pulmonary and pleural lesions in rheumatoid disease, 288

Doyle, L., Immunological abnormalities in bronchiectasis with chronic bronchial suppuration, 207

Ellis, D. A., Exacerbations of chronic bronchitis: exogenous or endogenous infection?, 115

Ellison, M. L., Biochemical markers in bronchogenic carcinoma, 263

Eraut, Dennis, Pulmonary necrobiotic nodules without rheumatoid arthritis, 301

Evans, John, Pulmonary necrobiotic nodules without rheumatoid arthritis, 301

Ewan, Pamela W., Immunological defence mechanisms against respiratory infections, 161

Fawcett, I. W., The effect of sodium cromoglycate, beclomethasone dipropionate and salbutamol on the ventilatory response to cotton dust in mill workers, 29

Fitzgerald, M. X., Bronchial artery embolization in the control of massive haemoptysis, 256

Ford, H. T., The symptomatic treatment of carcinoma of the bronchus using combination chemotherapy, 131

Fredericksen, B., Ventilation/perfusion scintigraphy in patients with chronic obstructive pulmonary disease, 261

Freedman, Bernard J., Patterns of response to bronchodilators in asthma, 95

Gibson, G. J., Use of exercise challenge to investigate possible tolerance to beta-adrenergic stimulation in asthma, 199

Girling, D. J., Singapore Tuberculosis Service/MRC study of 6-month and 4-month regimens in the treatment of pulmonary tuberculosis, 258

Gould, J. G., A comparison of ampicillin, erythromycin and erythromycin with sulphametopyrazine in the treatment of infective exacerbations of chronic bronchitis, 13

Grange, John M., Phage typing of tubercle bacilli, 257

Grant, B. J. B., Bromhexine in severe asthma, 307

Grant, I. W. B., A comparison of ampicillin, erythromycin and erythromycin with sulphametopyrazine in the treatment of infective exacerbations of chronic bronchitis, 13

Gray, P. B., Aspiration needle biopsy for solitary peripheral lung lesions: a review of 50 examinations, 235

Grech, P., Aspiration needle biopsy for solitary peripheral lung lesions: a review of 50 examinations, 235

Green, M., Respiratory disease in an electronics factory, 257

Green, Malcolm, An evaluation of the tuberculosis agglutination test, 138

Greenacre, J. K., Use of exercise challenge to investigate possible tolerance to beta-adrenergic stimulation in asthma, 199

Hammerstein, James F., Epidemiology of bronchitis and emphysema in a rural area with special reference to alpha-1-antitrypsin deficiency, 162

Hasan, Faysal N., The association of adenocarcinoma of the lung and blastomycosis from an unusual geographical location, 242

Harding, J. Richard, Pedunculated capillary haemangioma of the bronchus, 336

Hotta, Hiroshi, Pulmonary alveolar proteinosis: an analysis of pulmonary washings, 313

Hayden, S. P., An assessment of the place of follow-up in pulmonary tuberculosis, 217

Heard, B. E., Transbronchial lung biopsy through the fibreoptic bronchoscope, 108

Heath, Donald, The pulmonary vasculature in haematite lung, 88

SUBJECT INDEX

Acclimatization to heights, 196
Acidosis, non-respiratory, with hypercapnia, 62
Acini of lung, talking clearly about, 1
Adenocarcinoma of lung with blastomycosis, 242
Aerosol compared to IPPB, 122, 222
Agglutination test for tuberculosis, 138
Airways obstruction, effect of propranolol and metoprolol on lung function in, 327
Alpha-1-antitrypsin deficiency
  lung function in, 125
  related to epidemiology of bronchitis and emphysema, 162
Alveolar microlithiasis, pulmonary, 151
Alveolar proteinosis, pulmonary, 313
Amoebiasis, pleuropulmonary, 147
Ampicillin in infective exacerbations of chronic bronchitis, 13
Anaerobic lung infection, 187
Antibodies, rifampicin-dependent, in hepatorenal failure, 67
Arrhythmias, atrial, in lymphoma, 71
Arteriovenous fistula of lung with intrapleural haemorrhage, 155
Arthritis, *see* Rheumatoid arthritis
Aspergillosis, allergic bronchopulmonary, and inhaled corticosteroids, 253
Aspiration needle biopsy for solitary peripheral lung lesions, 235
Asthma
  BRL 10833 in, 225
  bromhexine in, 307
  immunoglobulin levels and clinical status in, 256
  ipratropium bromide in, 181
  and mites in children, 79
  patterns of response to bronchodilators in, 95
  pirbuterol with salbutamol in, 255
  prednisolone in, 181
  salbutamol in, 181, 222
  tolerance to beta-adrenergic stimulation in, 199
  treatment with house dust mite extract in, 21, 255
Atrial arrhythmias in lymphoma, 71
Atrioventricular conduction defects in lymphoma, 71
Avian granuloma, 162

Bacteria, anaerobic, affecting lung, 181
Beclomethasone dipropionate, effect of, on ventilatory response to cotton dust, 29
Beta-adrenergic stimulation, possible tolerance to, in asthma, 199
Biochemical markers in bronchogenic carcinoma, 263
Biopsy, *see* Lung biopsy
Bird fanciers' lung, 162
Blastomycosis with adenocarcinoma of lung, 242
Bleomycin lung damage, 321
Blood vessels in haematite lung, 88
BRL 10833 in asthma, 225
Bromhexine in severe asthma, 307
Bronchial artery embolization in control of haemoptysis, 256
Bronchial carcinoma, symptomatic treatment with combination chemotherapy, 131
Bronchiectasis, immunological abnormalities in, 207
Bronchitis
  epidemiology of, related to alpha-1-antitrypsin deficiency, 162
  exogenous or endogenous infections exacerbating, 115
  ipratropium bromide in, 181
  prednisolone in, 181
  salbutamol in, 122, 181
  sulphametopyrazine prophylaxis in, 231
  treatment of infective exacerbations of, 13
Bronchoconstriction, reduction of, by BRL 10833, 225
Bronchodilators, patterns of response to, in asthma, 95
Bronchogenic carcinoma, biochemical markers in, 263
Bronchoscope, fibreoptic, transbronchial lung biopsy through, 108
Bronchus, pedunculated capillary haemangioma of, 336

Cancer, *see specific tumour or site*
Carcinoma
  bronchogenic, biochemical markers of, 263
  of bronchus, treated by combination chemotherapy, 131
Cavities, pulmonary, in rheumatoid disease, 39
Cefuroxime in treatment of lower respiratory tract infections, 259
Chemotherapy, combination, in carcinoma of bronchus, 131

Chest disease and immunodeficiency, 143, 161, 207, 256, 261
Children
  cystic fibrosis in, 259
  lung function in health and disease, 260
  mites and asthma in, 79
Combination chemotherapy in carcinoma of bronchus, 131
Computerized tomography of thorax, 256
Corticosteroids and allergic bronchopulmonary aspergillosis, 253
Cotton dust, effect of various drugs on ventilatory reponses to, 29
Cystic fibrosis, 259–60

Effusions, pleural
  in rheumatoid disease, 39
  thoracoscopy in diagnosis of, 74
Electronics factory, respiratory disease in, 257
Embolization of bronchial artery in control of haemoptysis, 258
Emphysema, epidemiology of, related to alpha-1-antitrypsin deficiency, 162
Erythromycin in infective exacerbations of chronic bronchitis, 13
Exercise challenge in asthma, 199

Fistula, pulmonary arteriovenous, with intrapleural haemorrhage, 155
Fungal disease of lung, diagnosis of, 253

Genetic heterogeneity in cystic fibrosis, 260
Gold salts, lung changes after, 247
Granuloma, avian, 162

Haemangioma, pedunculated capillary, of bronchus, 336
Haematite lung, pulmonary vasculature in, 88
Haemoptysis, bronchial artery embolization in control of, 256
Haemorrhage, intrapleural, complicating arteriovenous fistula, 155
Height, acclimatization to, and proteinuria, 196
History of spirometry, 165
HLA typing in bird-fanciers' lung, 162
House dust mites
  and asthma in children, 79
  hyposensitization to, 21, 255
Housing, smoking habits and lung function in adults, 261

Hypercapnia with non-respiratory acidosis, 62
Hyposensitization to house dust mites, 21, 255
Hypertension, features of, 103

Immunodeficiency and chest disease, 143, 261
IgE levels and clinical status in asthma, 256
IgA deficiency and sarcoidosis, 143
Immunological abnormalities in bronchiectasis, 207
Immunological defence mechanisms against respiratory infections, 161
Infections
  anaerobic, of lung, 187
  exacerbating chronic bronchitis
    exogenous or endogenous?, 115
    treatment of, 13
  lower respiratory tract, treated with cefuroxime, 259
  pulmonary, and rheumatoid arthritis, 57
  respiratory, immunological defence mechanisms against, 161
Intrapleural haemorrhage complicating arteriovenous fistula, 155
IPPB compared with aerosol, 122, 222
Ipratropium bromide in asthma and bronchitis, 181

Jejunal villous atrophy in bird-fancier's lung, 162

Lung
  acini of, talking clearly about, 1
  adenocarcinoma with blastomycosis, 242
  alveolar microlithiasis of, 151
  alveolar proteinosis of, 313
  amoebiasis of, in Ghana, 147
  arteriovenous fistula of, with intrapleural haemorrhage, 155
  biopsy
    aspiration needle, for solitary peripheral lesions, 235
    transbronchial, through fibreoptic bronchoscope, 108
  cancer, paramalignant disease in, 163
  changes after gold salts, 247
  damage to, by bleomycin, 321
  diagnosis of fungal disease of, 253
  haematite, vasculature in, 88
  infection
    by anaerobic bacteria, 187
    and rheumatoid arthritis, 57

Lung (*continued*)
lesions in rheumatoid disease, 39, 288
necrobiotic nodules in, without rheumatoid disease, 301
obstructive disease of, ventilation/perfusion scintigraphy of, 261
Lung function
in adults, related to housing and smoking habits, 261
in alpha-1-antitrypsin deficiency, 125
in children in health and disease, 260
effect of propranolol and metoprolol on, in airways obstruction, 327
measurement with Wright respirometer, 333
Lymphomas with atrial arrhythmias, 71

Mantoux test and Tine test compared, 255
Metoprolol, effect of, on lung function in airways obstruction, 327
Microlithiasis, pulmonary alveolar, 151
Mill workers, effect of various drugs on ventilatory response to cotton dust of, 29
Minute volume measured with Wright respirometer, 333
Mites
and asthma in children, 79
hyposensitization to, in asthma, 21, 255
Mycobacterium tuberculosis, phage-typing of, 257

Nodules
necrobiotic, without rheumatoid disease, 301
in rheumatoid disease, 39

Obstructive pulmonary disease, ventilation/perfusion scintigraphy in, 261

Paramalignant diseases in lung cancer, 163
Phage-typing of tubercle bacilli, 257
Pirbuterol compared with salbutamol in asthma, 255
Pleural effusions
thoracoscopy in diagnosis of, 74
in rheumatoid disease, 39
Pleural tumours, thoracoscopy in diagnosis of, 74
Pleurodesis, talc, long-term effects of, 254
Pleuropulmonary amoebiasis, 147
Prednisolone in asthma and bronchitis, 181
Propranolol, effect of, on lung function in airways obstruction, 327
Proteinosis, pulmonary alveolar, 313
Proteinuria at high altitude, 196
Pulmonary, *see* Lung
Pulmonary tuberculosis, *see* Tuberculosis

Respiratory disease in electronics factory, 256
Respiratory infections
immunological defence mechanisms against, 161
lower, treated with cefuroxime, 259
and rheumatoid arthritis, 57
Respirometer, Wright, 333
Rheumatoid arthritis
and pulmonary infection, 57
pulmonary necrobiotic nodules without, 301
Rheumatoid disease, pleural and pulmonary lesions in, 39, 288
Rifampicin-dependent antibodies in hepato-renal failure, 67

Salbutamol
by aerosol or IPPB in asthma, 222
by aerosol or IPPB in chronic bronchitis, 122
in asthma and bronchitis, 181
compared with pirbuterol in asthma, 255
effect of, on ventilatory response to cotton dust, 29
Sarcoidosis
and IgA deficiency, 143
mimicking malignancy, 343
Scintigraphy, ventilation/perfusion, in obstructive pulmonary disease, 261
Smoking habits, housing and lung function, 261
Sodium cromoglycate, effect of, on ventilatory response to cotton dust, 29
Spirometry, history of, 105
Sulphametopyrazine
in infective exacerbations of chronic bronchitis, 13
prophylaxis in bronchitis, 231

Talc pleurodesis, long-term effects of, 254
Thoracoscopy in diagnosis of pleural effusions and tumours, 74
Thorax, computerized tomography of, 256
Tine test compared with Mantoux test in tuberculosis, 255
Tomography, computerized, of thorax, 256
Tubercle bacilli, phage typing of, 257

Tuberculin tests, Tine and Mantoux compared, 255
Tuberculosis
  agglutination test, 138
  contact study, 254
  place of follow-up, 217
  short-course and intermittent treatment, 259–60
Tumours, pleural, thoracoscopy in diagnosis of, 74
Vasculature in haematite lung, 88
Ventilation/perfusion scintigraphy in obstructive pulmonary disease, 261
Ventilatory response to cotton dust, effect of various drugs on, 29
Vital capacity, measurement of, using the Wright respirometer, 333

Wright respirometer, 333
